

MOBILE ACCESS FOR ONLINE BOOKINGS

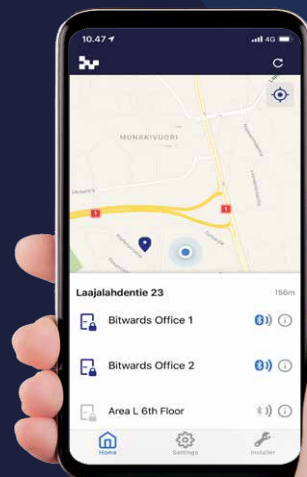

USE YOUR PHONE TO ACCESS YOUR ONLINE BOOKINGS

Looking for a meeting room, sports facility, accommodation, storage or maybe just a bike to ride?

The Bitwards solution delivers mobile keys to your phone after an on-line booking that allow you to access or use the booked asset immediately.

Bitwards offers a turnkey solution for on-line booking services that completely automates the management of the end-users access rights making the delivery, fetching and manual handling of physical keys unnecessary.

The solution allows you to access the booked assets with just a tap of a finger.

FULLY AUTOMATED BOOKING SOLUTION

1. BOOK ONLINE

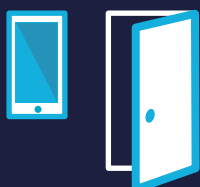

You can book the desired assets on-line through the reservation system. The service can be extended to add also additional users to the same booking if you are representing a larger group.

2. BOOKING DETAILS & CONFIRMATION

The system automatically sends confirmation & details of the booking to all persons in the booking.

The email contains the link to get the app that allows you to access the booked asset for the reserved period. The need to fetch or lend keys between users is no more necessary and allows cost-effective, scalable and user-friendly service.

3. ACCESS USING YOUR PHONE

Sign in into the app, access your asset and enjoy your booking.

ACCESS GRANTED.

**BOOK AND PAY ONLINE.
